NEW YUKON BOOTS

100% authentic leather winter boot with heavy thinsulate silver foil lining for extreme warmth. Steelshank in sole. Upgraded new colours attractive for both men and women.

The Eiger Yukon boot is specially designed for the harsh winter conditions, outdoor enthusiasts face in Northern Europe. A thick heat reflecting lining combined with a strong nubuck/natural rubber outer shell will provide for the finest cold weather protection imaginable - tested to minus 40 degrees centigrade.

Yukon are 100% waterproof from the ankle and down. The sole is heavily profiled for optimum grip on any slick surface. The Yukon also features a thick snow-guard to prevent water or snow to getting into the boot.
